Registration Fees: Rs 750/-

Limited Participants. E Certificates to all Participants

(Mandatory to attend)

Schedule:

Sep 10 th 2020	Timings 10 AM to 12 Noon	2 pm – 4pm
Sep 11 th 2020	Timings 10 AM to 12 Noon	2 pm – 4pm
Sep 12 th 2020	Timings 10 am – 12 noon	

Dr G Parameshwara
Chancellor
SSAHE

SRI SIDDHARTHA EDUCATION SOCIETY (SSES) was founded by Shikshana Bhisma late. Sri. H. M Gangadhariah also the founder secretary of the society, with the blessings of saint and seer, the father of "Bhoodan movement" Sri. Vinobha Bhave in 1959, has made a leap in the field of education. Sri Siddhartha Education society has grown to be the hub of higher education. Research and development form the backbone of SSAHE. Faculties and students involve in various research activities. SSIMS & RC, T Begur, right from the inception of the college in 2018

has always shown the urge to grow. Various academic International, National, and regional activities have already been conducted by the Institute. It's good to see that an International conference is being organised for the first time in India in the very nascent field of Medical Humanities. I wish the Conference all the best and let the participants get indulged in sumptuous knowledge.

SSIMS & RC was a dream project of my father late Dr G Shivaprasad, founder chancellor of SSAHE, an eminent ophthalmologist. The faculties of SSIMS & RC have always been actively involved in the Research and Activities of the Institute. Excellence has been achieved both in teaching and patient satisfaction. The scientific committee of SSIMS has been successfully conducting National and Regional Conferences. For the first time they are conducting an International Conference in the field of Health Humanities. I am sure it is going to infuse new energy to the participants to understand and inspire others in the field of Health Humanities.

Dr Anand G S
Member Trustee
SSES

others in the field of

Message

Dr Balakrishna P Shetty
Vice Chancellor
SSAHE

Health Humanities tries to answer the questions raised by Medicine in the field of Patient and Doctor Relationship. Rightfully, when the world is reeling under the onslaught of Covid 19 and its effects not only on the Health but also on changing Doctor- Patient relationships, an International conference has been organised by SSIMS & RC an affiliate Institution of SSAHE in the field of Health Humanities. I Congratulate the Scientific committee and entire faculties of SSIMS for conducting an international conference. I look forward to active participation by all.

Health Humanities is a rapidly evolving field that provides interdisciplinary approach to the health and illness. It tries to understand the role of doctor from the perspective of a Patient. With the inclusion of AETCOM and other modules in new CBME curriculum it has become imperative that all faculties involve in the understanding of Health Humanities and their role in framing medical students for becoming better doctors. This conference opens up to the knowledge in the field of Health Humanities.

Dr Sudeep Kumar M
Deputy Registrar
SSAHE

The Scientific Committee of SSIMS has played a crucial role in conducting scientific activities in the field of Medical Science. The Scientific committee has conducted many scientific activities both at Institutional and regional level. International Conferences always help us to get connected to the knowledge of the world. Inclusion of Humanities into medical education will make students imbibe some of the elements of compassion and empathy while seeing patients and make them better doctors. This conference is on the right direction to explore this knowledge.

Its my immense pleasure to be part of the International Conference on Health Humanities conducted by Scientific Committee of SSIMS & RC. I have seen Scientific committee at our Institute has always been active in conducting Seminars, Webinars and other Scientific Activities. I am sure that this International Conference will give insight into Humanities in Medical practice. When we are seeing a decline of humanitarian values amongst today's practitioners, this comes as a breather.

Dr Narayana K
Organising Secretary
Scientific Committee
SSIMS & RC, T Begur

We are glad that an opportunity for showcasing the strength of conducting an International Conference was provided by Dr G Parameshwara, the Honourable Chancellor of SSAHE. Dr Anand G S, the Director of SSIMS has always been supportive of academic initiatives at SSIMS & RC. On behalf of the scientific committee I thank Dr Balakrishna P Shetty, Vice Chancellor of SSAHE, Dr Sudeep Kumar M, Deputy Registrar of SSAHE for extending their support. Finally, I thank Dr D S Vasudeva, Principal, SSIMS for helping us to initiate for an International Conference. I extend my warm welcome to all the participants to the exciting field of Health Humanities through this Conference.

Dr D S Vasudeva
Principal
SSIMS & RC, T Begur

Dr (Gp Capt) V M Rao
Med Supt
SSIMS & RC, T Begur

Expressions

Dr Apoorva Pauranik

“ Mark my Words”. “ Mark the Dates”. The movement to include and promote inclusion of and exposure to the subjects of Humanities in Medical Education and Practice is gearing up now, but not a day too soon. Please do login into the conference and stay involved.

Dr Ravi Ramakantan

This is my thought.. ' Listen - not just hear and feel inspired to convert these famous words of Sir William Osler into your own actions'. " It is much more important to know what sort of a patient has a disease than what sort of a disease a patient has “.

Dr Navjeeven Singh

Study of the humanities disciplines is known to contribute to the development of humane professionals. Increasing emphasis on STEM education has precipitated the divorce of humanities from science curricula. The resulting imbalance in the "education of the head and the heart", with profound and worrying impact on attributes such as Attitudes, Behaviour, Compassion and Communication, respect for Diversity, and Empathy and Ethics in the development of the health professional, is crying for redress.

Dr Upreet Dhaliwal

We need physicians who respond sensitively to both the physical and the emotional needs of their patients, and who engage with their minds, hearts and emotions. Educators, to achieve this, must help students learn to pay attention to the human side of the doctor-patient interaction as well as to the medical aspects; this is possible through incorporating the humanities in their education. This conference is a step in the right direction.

Dr Mario Vaz

I am extremely happy that this national conference which addresses the issue of humanities in health and medicine is being conducted. The need to incorporate humanities in medical education has long been felt but is still in its infancy in India. The need for medical doctors to be not just competent but also humane has never been greater. This conference will provide an impetus to the humanities movement in medical colleges and the goal of developing more empathetic doctors.

Dr Satendra Singh

This conference aims to open up hitherto unknown field of health humanities by initiating a dialogue between global experts as well as Indian pioneers who have been engaged in practicing, implementing & developing this exciting field.

Health Humanities 2020

Faculties

Keynote Speaker

Dr. Rita Charon MD PhD, Executive Director, CUIMC Program in Narrative Medicine; Professor of Medicine, Columbia University Irving Medical Center.

International Faculties

Dr Jennifer Patterson, Senior Lecturer and principal investigator, The Current Elected President of Association for Medical Humanities, University of Greenwich.

Prof S J Reid, Glaxo-Wellcome Chair of Primary Health Care, Primary Health Care Directorate, University of Cape Town, Faculty of Health Sciences, Cape Town, South Africa.

Corinne Doria is a historian of medicine and a Professor at the School of Advanced Studies of the University of Tyumen (Russian Federation). Her work focuses on the social history of medicine and disability in Europe in the 19th-21st century.

Dr P Ravi Shankar, Faculty, IMU Centre for Education, International Medical University, Bukit Jalil, Kuala Lumpur, Malaysia.

Health Humanities 2020

Faculties

Eminent National Faculties

Dr Apoorva Pauranik, a Neurologist retired as Professor at M.G.M. Medical College, Indore. Director Pauranik Academy of Medical Education. Core Interests: Nurturing Patient Support Groups dedicated to many neurological diseases.

Dr Ravi Ramakanthan, He was instrumental in establishing the Medical Humanities cell in KEM in 2009. He is a Visiting Consultant in Radiology at his alma mater and an Honorary consultant at the Kokilaben Hospital.
